By the way, in a different thread, I DEFENDED you, saying that what you usually say is right, and your the only one who really has the guts to say it what you do. I still stand by my opinion on Country Meadows, but you are right that i shouldnt be talking about you behind your back, and im sorry for that. i think i found the post (wasnt an exact match with what you quoted, so im not sure), and deleted it.

Hopefully with that over, can anyone else give me a direct link to the fixed barracks?
