Pfft, you know nothing about being anti-emo. All hail me, king of the anti-emos.

Emos are nothing but self-absorbed retards who do nothing but sit around all day being sad and sulking about how bad their middle-classed lives "suck". They act like they're the only ones with problems, and that only their diaries understand them, that and their own kind. It's an absolutely ridiculous style and music genre. The whole thing is bullshit, and it's just one step away from being gothic.
