Sure...he'd still be sitting in front of the UN asking every other country what THEY think he should do about it. Then he'd defer to Edwards, who, being the damnable tort lawyer he is, would have called for lawsuits against everybody BUT the ones at fault. And maybe, MAYBE, he'd decide that FEMA and the National Guard should get involved...then delay for several months because he started having second thoughts about his position on disaster relief.

Did I miss anything?

And Michael Moore should go fuck himself and die. There, I said it. Free speech goes both ways. He can spout his bullshit, and everyone who disagrees can tell him to fuck off. Seems fair to me.
