Many fixes and changes were made to the original maps including additional sounds, more effective vehicle blockers, prevent wall jumping, and other special effects. The much hated ability to do base to base attacks on certain maps has been prevented. Multiplayer radio command icons are now available, Obelisk power will be audible, seamless interaction between the Renegade client and the Free Dedicated Server will introduce server-side enhancements that make available the best effects ever achieved in Renegade multiplayer gameplay.

The people who have been eager to play the best Fan-made maps available at this moment haven't left out. Six incredible maps, C&C_FieldTS, C&C_Gobi, C&C_Sand, C&C_MutationRedux, C&C_Siege, C&C_Snow are all available through this update. Gobi, Sand, and Snow were among several maps intended to be released by Westwood Studios, and through the efforts of prolific level designer
