Subject: Re: RenGuard Lite - Any chance of seeing something like this?
Posted by Scorpio9a on Sat, 05 Nov 2005 09:18:58 GMT

Nice idea and all, but here are some test results:

RenGuard 1.04 Full - 3.0 seconds startup time. (ready to start renegade with html loaded)
RenGuard 1.04 Lite - 2.2 seconds startup time. (ready to start renegade)

Lite has the sound system completely disabled and no html control at all. I am sure we can live with 0.8 seconds imo, again i like the idea, but is it worth the 0.8 seconds that you hardly notice?
