Darkre1gnUltron10Darkre1gn127.4 K (Kilobytes/second)

1019.2 K (Kilobits/second)

Guess this is um... 127.4 up

1019.2 down?

No, 127.4 KBps = 1019.2 Kbps.

???

That's like saying 5 apples = 1 apple :rolleyes:

Lol...

No, but nice try.

A byte is made up of 8 bits. If you're given the speed in bits (kb), and you want bytes (KB), than just divide by 8.

It would be like saying a "Bag of 8 Apples" contains "8 apples".
