Please try to connect to:

n00bstories.radiantx.net
dom-guild.radiantx.net
dominion.radiantx.net
207.44.173.3

You know how to do it.  I've noticed that a few regulars haven't shown up since n00bstories.radiantx.net went down, so connect through that.  And if you're new to the community, download http://www.mirc.com as your chat client, and configure it to that address.

Lets keep that room booming people.
