Does anyone know how to attatch an obelisk's weapon to a vehicle? I saw in a mod server an Arty with a ceiling gun obelisk attatched to it's barrel. Then I saw an apache with one attatched to where IT's guns would be, anyone who can help me with how to do this I'd be grateful,

I think its something like

- 1 Create_real_Object, Nod_Apache
- 1 Attatch_Script, M00_Disable_Physical_COLLision_JDG
- 5 Create_Real_Object, Mx0_Nod_Obelisk
- 5 Attatch_script, M05_Nod_Gun_Emplacement

I tried this but it didnt work, but I think its something liek this, any help would be appreciated

Thanks
