dude i dont cheat and u know it ur just a loser. y dont u admit it. dude cant u figure it out man the file would not block the client side of the fucking program. if the damn thing is running on my comp it is running it is plain as that. the server can not and will not block the client in anyway from showing on the rg network dude you are plainly a fucking idiot who can not take it that ppl are better then u in the game.

you clearly dont understand client side and server side aspects.

SONNY your are just a dumb ass i mean really. cant you see that i have been posting in the forums. LOL FUCKING TARD. i'm sorry i dont keep up with ways to cheat cause i really see no need to cheat in a game. i just play the game. maybe you 2 need to keep up with it cause you guys think that ppl who are better then you cheat. i mean really wtf get some skills. and stop crying when ppl kill you.

BTW it is really easy to take a ss of ren then cut it out and paste it on irc when u rg some1 who is not on the netwrok anyway. the ss's are really nothing. i mean hell it dont show the dates and time of the ss's for all i know he could have takin the ss when i was ingame for renegade then taking a ss in irc when i was not playing and out it together. but caveman really man you are a fucking idiot and i am done with you. there is nothing further to discuss with you. this was entertaining. there is 2 many ppl who will tell you that i dont cheat.
