Mr wiggles pretty much blows but he'd rape the shit out of you and Litjitsu seeing how he is a clanwar player. And people that know how to play clanwars are so much better then people who play in public servers all day it's ridiculous

Hmmmm so it's better to play 2v2 games all day without saying a word to your opponents unless "PWNed" or "I 4m t3h 1337" than to play a public game now and then and actually do so with friends and have some fun during those games?

Sure I like some CW's from time to time but don't judge people on the fact they play CW's or not

first of all karm, during the time you were in VERB, we never even played a single game with each other, and you havent seen me play since, id probably give you a good game.

dont get us wrong Goz, public servers can be fun from time to time, but when you play public server games, you can only learn so much. once you learn clan wars and play them regularly, they ARE fun, at first it may not seem like it cuz you'll be getting pwnt your first 20 games or so, but they are a good time.

and when you said you play clanwars from time to time, playing clans like Black-Cell or XpHaZe that run public servers, doesnt really count, since all they do is play in public servers all day as well. i mean, i know n00bs that think Bizmalt is like the best renegade player ever, but the truth is, he sucks hard. hed lose to any player on clanwars.cc garunteed, if you guys would stop arguing and just check it out and join the manual league and play competitively youd realize we aren't bs'ing you.
