Subject: Re: Install Problems
Posted by dead6re on Tue, 22 Nov 2005 13:02:30 GMT

I haven't checked about Service Pack 2, I'm currently awaiting my version to arrive since the installer doesn't work for me. It can't fetch my product id, but after it has finished, maybe this weekend coming I will be checking and try to find out any way to install and run Rengeade on SP2 if the vb runtime files do not work.
