My renguard won't load up the core patch and i can't find it on the internet. I want renguard and core patch 1 but ppl keep telling me to egt the standalone version. I tried doing the user control thing in regedit where you change the number too a zero but the patch still won't work. Ever since my renegade got deleted the core patch won't even show up when i click on renguard. i can't find out whats wrong can someone please help me???

Is there a link of somesort where you can download corepatch one and still have renguard???

Is the stand alone version compadible with renguard???

Please help!
