---

ok so i installed the CS bot and everything works fine but certain commands dont work.

I get this

\* /dll: unable to open 'C:\Westwood\CS\FDS\dll\RenFDS.dll' (line 750, CloudyServ2.cs)

when i open MIRC for the first time it tells me to put in a  
FDStalk port. my question is what do i put? i put 6667 and it doesnt work
