I know noobstories is down, but for "Shits and giggles" I went to <http://www.n00bstories.com> and got this...

Welcome to the future home of: Deru Internet

You can access the control panel for your account by going to:
<http://cpanel>

Thank you for choosing Deru Hosting for your web hosting needs. This page was set up when your account was created. Please refer to the welcome email for more information about the specifics of your account.

When you are ready to upload your site be sure to replace this page (index.php) with your own index file or delete this holder page completely.

If you would like to modify your own domain record to point to our servers, please use the nameserver information below:

Primary nameserver: ns3.deru.net
Primary nameserver IP: 140.99.0.4

Secondary nameserver: ns4.deru.net
Secondary nameserver IP: 140.99.1.4

Handy links:

Support forum: <http://forums.deru.net>

Help desk ticketing system: <http://hostingsupport.deru.net>

Thanks again!
The Deru Internet Team

That is messed up.
