runewood wrote on Wed, 14 December 2005 15:10Im tired of Europe thinking America is its bitch. We have our own damn free will, we don't need to ask you if its ok to do something. America has a large double standard that it must live up to and we are getting sick of it. If we do nothing we are heartless monsters, if we act we are the "evil empire". Maybe we should have let Germany roll over France and Russia and North Africa. Least then we would get 1 message instead of like 8.

Totally agree. The world takes us for granted.
