It *needs* to be done? Why hasn't anybody bothered or really cared publicly since just about 3 years ago then?

And this is that attitude that's going to basically require us to do it now. Everybody now thinks it "Needs" to be done, so we're going to need to go ahead and do it now. Renardin says we're stupid and lazy if we don't now too; we'll ignore that a few seconds later he said it's sad that we had to "copy", ya know? What the hell do people want: us to do it, or us to not do it? There's no jealousy here, just serving the fans.
