Still working on CP2.

Titan has almost finish C&C_Last_Stand (just some issues with the tiberium silos left I think)

Still trying to get C&C_FieldTS and C&C_Walls from Reborn.

And I am waiting for a readme file.

Then we go into testing (mainly to make sure that C&C_Last_Stand is bug free and that the patch as a whole is bug-free)

Although I will probably wait until I finish the new scripts.dll 2.2.3 (with the bug-fixes I need to make) before we proceed.
