We are looking for people to playtest the new map for CP2, C&C_Last_Stand. (which has been created exclusivley for CP2)
If you want to beta test, you need CP1 installed and you need scripts.dll 2.2.2 installed.
We will be running a test server and will provide you with a copy of the beta version of the C&C_Last_Stand map. (right now, I dont have any place to host the testserver so if you have somewhere good, maybe I will call on you if BHS doesnt have anywhere to host it)

If you are interested, contatct me:
