They are poor scripts. Enemies repair enemies etc.

At one time i had an Advance Bot Tutorial, depicting EVERY kind of bot you can use and every style.

Vehicles that follow waypaths and shoot along the way, when they reach the end they continue on freelance. All sort's of craziness.

I had it all setup in one big battle scene. Bot would just storm out onto the battle feild in every kind of way. Took me days to make.

Anyway, i wouldnt bother with those scripts, they never preform how you need them.
