RG..useless, If you are bypassing it and cheating they can just use the excuse "look i'm running renguard" RG has brainwashed stupid n00bs into thinking that no matter what you say if you're not running renguard and you kill them you're a cheater. This needs to be locked

Ya, agreed...RG (like any anti-cheat system) isn't perfect, but it does do a good job of script-kiddie disposal...
