light wrote on Sat, 31 December 2005 17:36l play in servers I mod/admin as much as possible. The others I try to know the hosts/admins. Failing that, I can play in other servers and show people that non-RG players don't all cheat.

The odds are against you. It is far more likely that the player not using renguard could be cheating, versus the chance that a renguard user could be cheating, and that is the simple fact of the matter. If you want to continue running around in your fantasy world believing RenGuard is simply something out of fiction, then go ahead. Just remember that you're wrong.
