Re-install and then do everything in this way:

- 1.Re-install the game.
- 2.Install the 1.037 patch.
- 3.Install No-CD crack if wanted.
- 4.Install RenGuard if wanted.
- 5.Install CP1 if wanted;

Go to "options" in the RenGuard menu and enable the option: "Disable Core Patches".

Now manually download the CP1:

http://download.renguard.com/standalone_cp1.zip

- 5.Install an updated version of the scripts.dll if wanted;

<http://prdownloads.sourceforge.net/rentool...21.zip?download>

Here's the install instructions:

1. Download the file.
 2. Open it and only select scripts.dll and bhs.dll.
 3. Open up your main Renegade folder (C:\westood\renegade) and look if there is a scripts2.dll, if there isn't then rename scripts.dll to scripts2.dll.
 4. place the 2 selected files into your default Renegade folder.
-
