Naamloos wrote on Wed, 11 January 2006 16:01The "bridge" was placed there in a hurry. GDI didn't have enough time to build a concrete one.

Ever heard of bridge layers?

They take a shitload less time to deploy than actually BUILDING A WOODEN BRIDGE IN A PLACE WHERE WOOD IS SOMEWHAT OF A RARE RESSOURCE.

Besides, why make/deploy a bridge over a small trench when you can just FILL IT UP WITH SAND?
