fucking sake what the hell are you trying to pull?

Money?

I mean from nowhere he comes and offers us servers...
which he doesnt tell us the specs for one.he doesnt have any forums or site. this sounds like a
damm scam!
hes saying it like this "give me money and ill get you a server"
which he has no "contract" like most providers have.
ffs hes just a kid
hosting these servers off his 512mb ram 900mhz PC
