Pfff, that's all id uses right now.

I have a major problem with that. Every single game now is just slapped onto an existing engine. Turok 6 is going to be on the Unreal 3 Engine.....COME ON! First EA and now Buena Vista.

Like we cant tell its the exact same feel and look as the others. Just new models, rendered exactly the same, same lighting, same physics...

Do you even know what the cost of developing a new modern graphics engine is?

How do you think Valve spend \$40 million developing Half-Life 2?
