JPNOD wrote on Wed, 25 January 2006 19:28Pfff never looked into the cfg.file of fds...

Because it asks if you want = AUTO Restart  
just set it to off, but not recommended for server owners.

the reason why this is, because when a server crashes it will restart since it's always on anyways  
it will auto reconnect.

Yes, but like u said, if u disable it, the FDS does not restart  
when it crashes.
