Have you installed RenGuard before?

Game2.exe is often used by RenGuard, so I would do this:

- 1) Go to your renegade dir often "C:\Westwood\Renegade\"
- 2) Rename Game2.exe To Game2.exe.bak
- 3) Retry the installer

If after installing RenGuard and you click the Renegade box inside the program and it doesn't launch do the following

- 1) Go to your renegade dir often "C:\Westwood\Renegade\"
 - 2) Rename Game2.exe.bak To Game2.exe
 - 3) Retry starting RenGuard
-
