Download them first to be able to play them. If you want to have a lot of custom maps at once, you could download the UberMapPack with about.. 200-300 maps (?). You can find it at http://www.mpmaps.net/ It's 700mb big. I prefer to download the maps I like myself from sources like http://www.renmaps.com and test them. If I like them I keep them, if I dislike them I trash them.
