@ Jeeprubi - I used the Regular power plant and built off it. Westwood never released an Advanced power plant model, they only had a concept. I have a picture of it, so i will be using that as a reference.

@ dude#1 - the interior is the same as a normal power plant FOR NOW. I wanted to get a good looking outside before i worked on inside. I plan to extend into the blocky area for an inside.

@ cabal - In C&C 95 the advanced power plant is the size of a normal Power plant with just an extra cooling tower and a few more generators, It will become larger as progress is made
