Those prices dont include shipping, although it is most likely small. I neglected to mention as well that my TD, RA, and TS discs are all scratched beyond use. There was a time in my life, when i was a complete and total idiot and didn't take care of my belongings. Then i grew up, got married, and had kids. Now i realize i can't afford just to buy new copies of everything, so i take care of my stuff.

Just a shame i didn't start taking care of my stuff sooner.

The broken state of everything does suck, but hopefully they can get a patch to fix most of the issues.
