mrpirate wrote on Thu, 16 February 2006 11:31 That's a misleading statistic, because an LCG Black Hand does that amount of damage from anywhere within its range, while the Chem Warrior has to be right the fuck next to the tank to do maximum damage. I really wonder what you think a tank is going to be doing while you saunter up to it. Easy enough to answer... Most tanks are usually busy opening fire on Nod's buildings, or usually, their Harvester. It's stunningly easy to "sneak up" on someone driving a tank.

Quote:P.S. Lithius, what server(s) do you usually play in, and under what name? Just curious. The server varies, but I've been hanging around n00bstories.com's server more often than not. The username is usually "DLithius". Sometimes it's "SC2Fwiffo" when I feel Spathi enough for it. (And here I'll assume the reference went woosh...right over everyone's heads.)
