ok, when i try to open my bot,it closes so fast i cant read the message lol.i took a screen shot and what i got from it was invalid argument in par.pl line 27.
after 7 or 8 trys, it finally does open and seems to work fine.ive been over my brenbot.cfg and server.ini a number of times and it all matches up. i dont know where to find par.pl lol.
any help will be greatly appreciated
