SEAL wrote on Mon, 20 February 2006 23:05I could have sworn that someone posted a picture of their wallpaper that had the moon crashing into earth a long time ago in a desktop thread. But or the life of me, I can't find the post or the website that he or she got it from.

Does anyone know the website (or can anyone find the post)? or am i just imagining things things that were never posted...

That might of been me. Sadly, I've changed desktops long ago. I found the desktop of DeviantART, though.
