Hello, i just reinstalled rengaurd cause it wastnt working, and when i reinstalled it (uninstalled then reinstalled) it wanted to download cp2, i said yes and about 1/3 through the big download it stopped and crashed on me, now it opens rengaurd with white screen, and after 1 minute windows closes it cause program not responding.

if anyone has any ideas please respond, (a cp2 update that i dont have to do through the renguard program would be nice)

i have had the basic problem before of renguard crashing like this (y i reinstalled) but this time it was plainly because of cp2 download
