Hello, i just reinstalled rengaurd cause it wastnt working, and when i reinstalled it (uninstalled then reinstalled) it wanted to download cp2, i said yes and about 1/3 through the big download it stopped and crashed on me, now it opens rengaurd with white screen, and after 1 minute windows closes it cause program not responding.

if anyone has any ideas please respond, (a cp2 update that i dont have to do through the rengaurd program would be nice)

i have had the basic problem before of rengaurd crashing like this (y i reinstalled) but this time it was plainly because of cp2 download

Blackhand Studios Core Patch Downloader

Core Patch 2 Introduction

From the Creators of RenGuard, Blackhand Studios(tm) proudly presents "Core Patch Two". CP2 is the latest in a string of unofficial C&C Renegade updates which fix several bugs identified in the game and add new, exciting features and the very best in fan-made maps.

Four excellent maps, C&C_BunkersTS, C&C_Last_Stand, C&C_Terrace, and C&C_Tropics are all available through this update. We encourage all players to try out these new maps.

General Features:

- The faster map loading enjoyed with Core Patch 1 has been made even faster in this patch.
- Version 2.2.1 of the custom scripts.dll by "jonwil"
- The font change inadvertently introduced, and the custom loadscreen in CP1 has been revoked, restoring the Renegade defaults.
