If you don't find a happy ending, try some of these sites, they have some good textures, depending on what you need it for, but then you have to have a way of loading them and resaving them in .TGA format.

<http://www.grsites.com/textures/>

<http://textures.forrest.cz/>

<http://home.ptd.net/~drbob/textures.html>

I have others if this doesn't help.
