hi,
after i installed renguard and the Patches, my former german renegade version is now english.
The main menu, many speeches and the unit names etc. are now in english. Only some speeches
are left in german. I told this someone at irc, and he told me that this shouldn't happen and that i
perhaps need a copy of the german always.dat. So, if he was right, could someone tell me where
to get this file? Or if he wasn't right, would someone tell me what to do about this?
