Can anyone tell me, for each of the following:

- base power offline report sound
- beacon warning report sound
- beacon disarmed report sound
- beacon deployed report sound
- harvester destroyed report sound
- harvester damaged report sound
- vehicle delivered report sound
- building destroyed report sound
- building damaged report sound

If they play:

- A. On both the host and the client
 - B. On the host only (e.g. in 1-player lan)
 - or C. Only in Skirmish/Single Player/whatever and never in multiplayer at all.
-
