build 10 Apocalypse Tanks... and blast the base...real easy because if they get Elite ...they nuke nearly everything with one shot...only watch out for Yuris... thatswhy 10... if they can get one..the other 9 kill this little brainiacs...

a good hint for Basedefense: Kirovs, you can defend the small entrance very well just led them nuke the ground...everything that drives throught get killed.... and a sixpack of Flaks can kill the enemy kirovs
