ill check out renhelp but a lot of the time i get the 404 error.

(part 1, addin buildings) ok iv tryed wt u sed with renx / proxis and when i go to try the map the building dont show, but when in level edit its show that blue # with a roof and the spawner but thats it, how i get them into the map ingame?

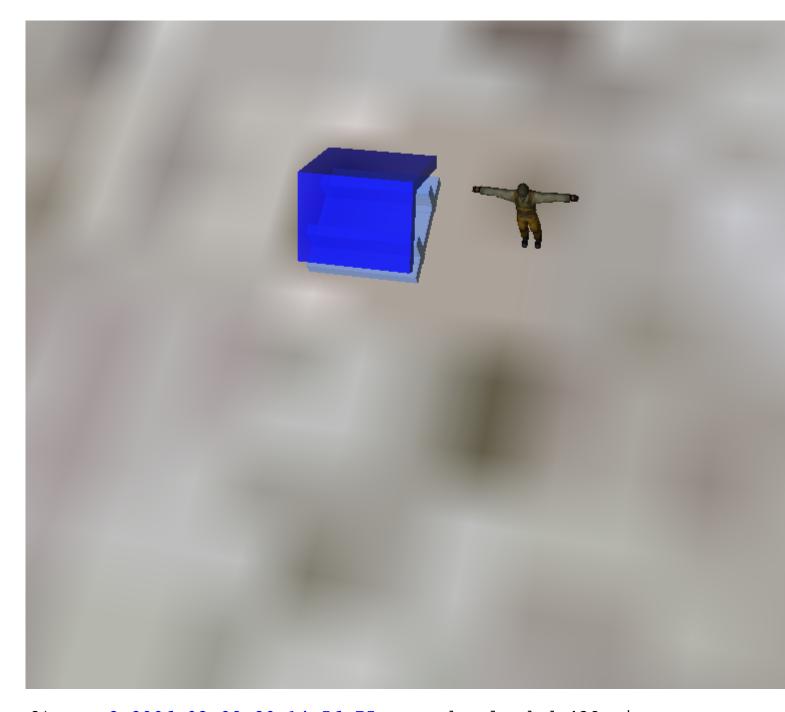

just to add in when on leve editor and u zoom out how do u get it to make the terrain vewable at a grater distence i did it the other day but iv 4got
