Oh yea, I forgot .

Nyways, thanks guys for helping .

For the people with the same problem, did is what I did:
- First reinstal Renegade or make sure you've the original files.
- Download this en read the readme
- Run Renegade, probaly the CP1/CP2 do not run, so instal CP1 fist. Here's the link
http://download.renguard.com/standalone_cp1.zip
- Instal it. Afther you are done, run Renegade and CP2 will be install now.
- Now your RG should work

(sorry for the bad English)
