In my opinion, he should be banned.

Look at whats happened.

He was a stuck up little bastard spamming anything under the moon for a month and then he sees a poll to be banned.

Has ANYONE else noticed that he has had a rather miraculous change of attitude?

One moment he doesn't give a damn and the next hes begging for his life/forum membership?

Ban the fucker, one less whining arsehole to deal with.

People DO NOT CHANGE overnight, guys. Its not like the movies. People will allways have what they were inside of them.
