Subject: A strange error
Posted by Omega21487 on Sun, 02 Apr 2006 00:40:51 GMT

I encountered a strange error today. Im running C&C:TFD and I manually loaded CP1 and then installed Renguard. After that I tried to download CP2 but it tells me

"Old File not found. However a file of the same name was found. No update done since file contents do not match."

The problem seems to be occuring in Always2.dat
