superj69 wrote on Sat, 08 April 2006 22:14i wish that the oil producing countries would buy water from canada for 70 dollars a barrel. Tomorrow, all of the largest oil-producing companies will realize just how fresh Canadian water is, and decide that \$70/barrel is well worth the money. Unfortunately, the price is in Canadian Dollars, so it's actually closer to \$.07/barrel in United States Dollars. People start drinking all of Canada's water, and so Canadians have to face a choice: start importing more expensive American water, or die from dehydration.

superj69 wrote on Sat, 08 April 2006 22:14PS. kanezor why is it you have been picking on my bad grantings, ne way that one should have been to your liking... i think

I wish you understood my reasons without me having to tell them to you.
