I will have to say that I am VERY impressed with the new version of Glacier and Bunkers 2.0

I have decided to make Bunkers 2.0 a permanent part of my rotation. I would like to keep Glacier in the rotation also; IMO people are confused with this map. Many will knock it saying the FPS' are too low. Here is a bit of info for you from me. My FPS' in Glacier_Flying were at 18 - 25. Glacier non-flying, I average 60 FPS. ACK did a great job re-doing the map. I would like to encourage all of you to get both maps.

Whether you like ACK or not, lets show some support for new maps by downloading them and playing them. Doing this can only help Renegade survive. It will prevent boredom.

To get the maps, go to: <http://www.renmaps.com> and have some fun.

Thanks,
K9
