Let's look at the facts for a moment:

1. You cheated and got banned.
2. You tried to bypass RenGuard
3. You are whining, bitching, and complaining about the ban

We can all agree on this, right? Right.

What makes you think that just by "apologizing" for being "mad" that the listed facts are just going to disappear and all will be well? You cheated, and then you tried to bypass the system. Let's try and use a real life type situation. Say you get arrested because you did something dumb. You then tried to escape from prison, but you were caught. Then you try to apologize to the warden and expect him to set you free because you apologized for your original crime. What warden, in their right mind, would let you free? Not one that wants to keep his job.
