I try to be cool about this issue and you are really making a big deal out of this. you ask me to kick at least 5 different people, in just half a game, don't you think this is a little too much from you already? and you didn't tell me no "who's a SPECIAL extra" or what so ever....you just told me this person is an extra, I click J to check??the name "ravesheW" shows up for this person....I know an extra when I see one, and believe me....I WILL kick anyone who disobeying the rule of our server, (but I really do not think that a ravesheW with the special skin should count as a ravesheW), like many of ya'll said I'm a mod...which is pretty much a officer in the real world. but sometime you just have to wait for the right time to ask me, and not message me 50 times within 30 seconds and say I'm not answering your message....I don't usually swear on anything....but this time I'm going to....I swear that person you told me who was using an extra was a ravesheW when I click J, ain't no lie, I don't believe you are a n00b and all, and I do agree with what you told me how there is extra in the server....that's why I kicked all of them, after those extra was gone I start playing for real, and you won't stop messageing me in the game, proof can be found on htsolid log. and I will post it up here if he ever send it to me. I'm online to play, I don't want to make no enemy with anyone, what I really want to make online are friends..if you are still piss off at me cause I did the little admin message about the kick thing.... I'm sorry, I shouldn't have done it just because you message me alot....and yes, I really really want to talk to you in person online again(don't take that too hard just because I did the message, take it as a mean joke or something if that would makes you feel better), if I did anything wrong just tell me again, I'll correct myself once again, I want to make friends....not enemies, aspecially in the hitech server cause I go there alot, I'm not trying to be mean or anything, I don't know why I did the admin message thing....I guess I might have a piss off day or something...I don't remember anymore, now I'm in the good mood and when I come to think of it....you are very correct, I was wrong, if there is anything I can do to make you feel better I'll do it~~~(beside letting my mod rights go away cause I like that right alot(^\_^))give me a reply post here  
PS, really....want to make friends....not enemies
