Deafwaspyah, thats ok. I will keep that in mind when we both release our maps.

But I am sure yours is every bit as good as mine will be.

I loved your DM cambodia (sure that is spelt wrong) it was different reminded me of tomb raider for some reason?!?!?! (think it was the texturing) what mode is your new one going to be? C&C, DM?

Mine will be a full C&C mode, 90% done on additional structures and terrain. you'll probably be finished first as..... shtop shtop this map is not ready yet! I only let you play it when it is ready!

heh heh! thats going in my sig!
