Lmao - theres some uber tactic ideas here. This must be some uber 1337 new tactic cos I never seen anyone do that in a cw.

SBH suck, pointwhoring gunners suck - how about actually doing something useful maybe? like get an apc and get on the enemy strip so they cant buy vehicles, bring some tanks along for the ride and boink engines as they run between buildings trying to repair - and leave the SBH/Gunners to n00b around fighting over a few points while you destroy the enemy base.
