When anybody plays on servers like Dragonnade, Black-Cell, or my favorite: n00bstories, (maybe they are all the same , I don't know) the players have the ability to lock vehicles, to use the !buy_veh command, have the crates on the map, become a veteran, and so much more, is there anything I can download to have those things, so when I host a game the players and myself can use those things????

--Thanks
